

Matzah cover letters: Print-out stencil

1. Print this PDF on letter-sized cardstock.
2. Cut out only the gray shapes for the word you want.
3. Do not cut the dotted lines out of the stencil. Dotted lines show you where to cut on your fabric that does not get traced from the stencil.
4. If you want to trace onto the back of your fabric, flip over the stencil and trace the "mirrored" text.
